

Hello my name is Matt Mitchell, Vice President of TELEMEDX Corporation located in Houston, TX. TELEMEDX is the largest EEG receiving center in the world and has been in operation for over 35 years. TMX specializes in supplying EEG service to non-urban community hospitals large or small. We currently contract with over 300 hospitals nationwide in forty-two states, some being multiple hospitals under corporate accounts. At this time, we are pleased to be supplying EEG needs to CHS, HMA, HCA, Tenet, Lifepoint, Baptist (Memphis), and Sunlink hospitals and would like to invite you to join this ever growing network of hospitals. Please take this opportunity to review the information on our services below or go to our website at www.teledmx.com. I think you will see TMX is unique in the services we provide and strives to be #1 in patient care and customer service.

- TELEMEDX offers both analog and digital EEG service and interpretations 24-hours a day, 7 days a week.
- We can increase your hospitals revenue with our low cost approach and flat based billing.
- **Guarantee 24-hour report turnaround**
- **Normal turnaround time is 3-5 hours**
- Digital Accounts can upload EEG's 24/7 for no additional charge.
- **Provide interpretations for Neonates, Pediatrics, Brain Death, and more**
- Provide service for ambulatory EEG, NCV's, (IOM) Inter-operative monitoring
- Provide Interpretations for hospitals owning their own equipment
- Interpreting physicians are board certified neurologist.
- TELEMEDX is fully HIPPA compliant and follows The Joint Commissions Guidelines
- No long term service agreements.
- Volume discounts available.
- Back-Up Services are also available for accounts that already have a neurologist.

Upon review of this information, should you wish to explore our services and need additional information please contact our offices at (800) 231-1009.

At TELEMEDX, we look forward to hopefully serving your facility in the future. With the increasing challenges facing the health care industry today, let TMX help you gain a competitive edge, increase your monthly revenue all the while making patient care the number one priority.
